2023 RENOVATION

PROJECT OVERVIEW

Spanish-inspired architecture with famous old-world charm, arching entryways, splashing fountains and meandering walkways, is the inspiration behind the upcoming multi-million dollar transformation of Omni Scottsdale Resort & Spa at Montelucia.

Resting at the base of the Camelback Mountain, the stunning natural beauty of this Paradise Valley gem and landscape of this idyllic desert locale inspires the newly redesigned spaces, which will include the meeting space and guestrooms.

The relaxed yet inspired ambiance of this soon-to-be reimagined destination will create an ideal backdrop for corporate meetings, weddings, and group events.
