
The Mansion on Forsyth Park

The Mansion on Forsyth Park is one of Savannah's most treasured and historic hotels. Originally built in 1888, it has been operating as a hotel since 2005.

In Fall 2022, the property began a thoughtful and comprehensive multi-million-dollar phased renovation, expansion, and luxury rebranding – offering a completely reconceptualized urban resort, which will debut in early 2024.

Upon completion, the resort will feature 149 guest rooms and a selection of distinct food & beverage concepts, consisting of a main restaurant, club bar and lounge, pool restaurant and bar, lobby bar, as well as multiple event spaces, spa, retail and more.
