OUR STORY

Our story began in 2018. With Caesars Entertainment quickly becoming the largest gaming corporation in the United States, an opportunity revealed itself to build an entirely new hospitality concept designed exclusively for non gaming hotels. The brand would position itself in strong feeder markets to Las Vegas in an effort to grow its Caesars Rewards members. While paying homage to the dynamic energy of Las Vegas, this opulent and lifestyle hotel brand would tap into the unique energy and culture of each destination which welcomes a Caesars Republic Hotel.
